#### What is and isn't included in this Receivables Finance Price List?

We've produced this Receivables Finance Price List to show the standard charges and fees for our Receivables Finance products and services. VAT is added where applicable.

We may charge for services that you request from us that aren't set out in this Price List, but we'll always tell you how much the charge will be and check you're happy to pay it before we provide the service to you.

Please note that taxes or costs may apply to you that aren't charged by us. If we have to pay any tax or cost for providing a service to you, we'll charge you the amount of that tax or cost.

Although this Price List is quoted in sterling, the currency equivalent of the sterling charge may be used (where applicable).

All fees and charges are applicable, unless stated otherwise in the Debt Purchase Agreement and in those instances this Price List doesn't apply.

Other banks involved in a transaction may also apply their own charges. We'll pass these charges on to you but as these charges are made by other banks we won't be able to tell you about them in advance.

Occasionally the date of a charge may occur after the indicated date noted in this guide.

Please read this Price List in conjunction with your General Terms and Conditions, Debt Purchase Terms and Conditions, Commercial Terms and Conditions and Credit Protection Terms (if applicable).
